

# Ebullient DirectJet™ Manifold

## INTRODUCTION

The Ebullient DirectJet manifold supplies engineered dielectric fluid to up to 32 servers.

## OVERVIEW

The Ebullient DirectJet Manifold mounts to any standard server rack with provided mounting hardware. Manifolds feature no-spill quick-disconnect fittings that allow DirectJet Module Loops to be connected to and disconnected from the Manifold without shutting down the DirectJet cooling system, allowing for convenient servicing of IT hardware. The DirectJet Manifold features an adjustable pressure regulator for precise flow control.

## PERFORMANCE

<b>Materials</b>	Aluminum body / Polymer fittings
<b>Dimensions*</b> (h x w x d)*	1181 x 89 x 38 mm 46.5 x 3.5 x 1.5 in
